

## Tirth Patel

**Passport:** AG370706 **Work permit:** Indian **Nationality:** Indian

**Date of birth:** 14/04/2006 **Gender:** Male **Phone number:** (+91) 7043184318

**Email address:** [tirthpatel82032@gmail.com](mailto:tirthpatel82032@gmail.com)

**Whatsapp Messenger:** 7043184318

**LinkedIn:** [tirth-patel-ai](https://www.linkedin.com/in/tirth-patel-ai)

**Github:** [Tirth3929v](https://github.com/Tirth3929v)

**Home:** 04, Mata Faliyu, Vansva, 394510 Surat (India)

### ABOUT ME

Highly motivated Bachelor of Computer Applications graduate with a strong academic record (Final Semester SGPA: 8.27, 462/550).

Solid technical foundation in full-stack web development, utilizing the MERN stack, Angular 17, and Python.

Aspiring AI Engineer with hands-on AI/ML internship experience, demonstrating a proven ability to build, integrate, and deploy efficient real-world applications and predictive classification models.

Passionate about leveraging analytical problem-solving skills to create innovative solutions, with deep interests intersecting Artificial Intelligence, Machine Learning, and Cyber Security.

### EDUCATION AND TRAINING

#### Bachelor of Computer Applications (BCA)

**Veer Narmad South Gujarat University (Sutex Bank College)** [ 01/08/2023 – 28/04/2026 ]

**City:** Surat | **Country:** India | **Level in EQF:** EQF level 6

Final grade: CGPA 7.52 (First Class with Distinction)

Data Analytics using Python

Fundamentals of Full Stack Web Development

Database Handling using Python

Object Oriented Programming and Data Structures

Java Programming Language

.NET Technology

Linux Operating System

#### Higher Secondary School (Commerce)

**Shree Sharda Vidhyamandir** [ 01/06/2021 – 31/03/2023 ]

**City:** Surat | **Country:** India | **Level in EQF:** EQF level 4

Elements of Accounts

Statistics

Economics

Organization of Commerce

Secretarial Practice

English

Gujarati

#### Secondary School

**Shree Sharda Vidhyamandir** [ 01/06/2020 – 31/05/2021 ]

**City:** Surat | **Country:** India | **Level in EQF:** EQF level 2

Mathematics  
Science  
Social Science  
Computer  
English  
Sanskrit  
Gujarati

WORK EXPERIENCE

 **Creative Web Infotech** – Surat, India

AI/ML Intern

[ 10/12/2025 – 09/01/2026 ]

- Machine Learning Development: Developed and implemented predictive models using Python, focusing on classification and regression tasks to solve real-world data problems.
- Data Engineering: Performed comprehensive data preprocessing, cleaning, and feature engineering to optimize model accuracy and performance.
- AI Integration: Collaborated on integrating machine learning models into web-based platforms, bridging AI logic with user-friendly interfaces.
- Research & Implementation: Evaluated various algorithms and libraries to determine the most effective solutions for specific project requirements.
- Technical Documentation: Documented model architectures and performance metrics to ensure clarity and reproducibility for future development cycles.

LANGUAGE SKILLS

**Mother tongue(s):** Gujarati

**Other language(s):**

**Hindi**

**LISTENING B2   READING B2   WRITING B2**  
**SPOKEN PRODUCTION B2   SPOKEN INTERACTION B2**

*Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user*

SKILLS

Artificial Intelligence & Machine Learning

Classification models / data analytics / natural language processing

Programming Languages

Python (computer programming) / Java (computer programming) / .NET / JavaScript / PHP / TypeScript / Javascript (React.js)

Web Technologies & Frameworks

MERN Stack (MongoDB, ExpressJS, ReactJS, NodeJS) / RESTful APIS / Angular / CSS & HTML / Git / Databases (MongoDB MySql PostgresSql)

## Database Management

Databases : MySQL , MongoDB

## PROJECTS

---

[ 09/11/2025 – 10/02/2026 ]

**Campus Recruit – AI-Powered Placement Assistant | Python, Machine Learning, Angular, Node.js** Write here the description...Developed a comprehensive full-stack AI platform designed to function as an advanced college placement and salary prediction system for students. Engineered and trained machine learning classification models to analyze academic records and technical skills, delivering accurate predictive analytics for career outcomes. Designed a seamless end-to-end architecture bridging complex AI backend models with a user-friendly frontend interface for intuitive data visualization.

Link: <https://github.com/Tirth3929v/Campus-Recruiting-AI-Assistant-System>

[ 01/09/2025 – 13/01/2026 ]

**AI Mock Interviewer & Proctoring System | Python, NLP** Write here the description...Built an interactive AI-driven mock interview platform utilizing Natural Language Processing (NLP) to dynamically generate domain-specific questions and intelligently assess candidate responses. Implemented real-time video proctoring and facial detection features using Computer Vision to ensure assessment integrity and simulate a strict, professional interview environment. Created an automated feedback mechanism that provides candidates with detailed performance metrics and personalized improvement suggestions immediately after the session. Designed a responsive candidate dashboard to efficiently track assessment history, manage profile data, and monitor skill progression over time.

[ 22/02/2025 – 05/03/2025 ]

**Grocery Management System | MongoDB, Express.js, React, Node.js (MERN Stack)** Designed and deployed a full-stack e-commerce web application to efficiently manage grocery inventory, process user orders, and handle administrative profiles. Developed a scalable backend architecture utilizing Express.js and Node.js to create secure RESTful APIs for seamless data transmission between the client and server. Leveraged MongoDB for dynamic database management, ensuring fast loading times, secure user authentication, and real-time inventory synchronization across the platform.

[ 03/01/2025 – 27/01/2025 ]

**Online Restaurant Management System | PHP, MySQL, HTML/CSS** Developed a dynamic, web-based management portal to streamline daily restaurant operations, including real-time menu updates and digital order tracking. Engineered secure database interactions using PHP and MySQL to ensure reliable data storage and efficient retrieval of customer transaction records. Created a responsive and intuitive frontend layout using HTML and CSS to enhance the navigation experience for both administrative staff and customers.

## HOBBIES AND INTERESTS

---

**Areas of Interest** Artificial Intelligence, Machine Learning & Predictive Analytics  
Full-Stack Web Development (MERN Stack & Angular 17)  
Python Development & RESTful API Integration  
Cyber Security, System Integrity, and Data Privacy  
Software Architecture & Version Control (Git, GitHub)

**Hobbies** Reading and learning about psychology and human behavior to better understand cognitive processes and interpersonal dynamics.

Actively learning European languages (German and Polish) and exploring their cultures in preparation for international academic pursuits.

Reading industry articles and case studies centered on emerging technology, AI advancements, and data-driven innovation.

Watching tech-related documentaries to stay current with the latest global software and hardware developments.
